

Key player at the European level, **CREPIM** develops, guarantees and qualifies the performance of materials and assemblies

CREPIM has reinforced its fire resistance service with 2 fire resistance test furnaces :

- 3 m x 3 m : Vertical Testing
- 1.5 m x 1.5 m : Vertical and Horizontal Testing

The range of our furnaces provides vertical, horizontal and indicative testing, fully complementing our reaction-to-fire testing capabilities.

Our technical experts remain at your disposal to provide you with support and advice through the testing process.
